3/29/69

Dear Steve,

Your letter dated March 11 has just arrived. I have no recollection of what you are talking about in the first paragraph, re: Jaffe. I suppose it is possible that I quoted you to him. However, I have no recollection of having done so. Having been away for three days, I cannot now take the time to check.

The post office has supplied a copy of a receipt you signed. I enclose a copy.

We have located the LIFE story on de Vasjoli. I have asked that copies of the incomplete ppictures and of the bad passport picture be made and sent to L.A. so that those of you who met Thilipse and the others might see if he is the one.

It would have been better if you had done as I asked with the publisher.

I do you that if and when you get the pictures, the silence from LA will be relieved a little, and promptly.

Sincerely,
